FOR COACH KENNY

FLEX FUEL

Your clients snap their meals. The AI tracks the rest. You stay the coach.

Snap it
A photo logs the meal

Track it
Calories, protein, weight

Coach it
You see every client

ALSO INSIDE

The **November Stair-Step Challenge**, Nov 1 to Nov 24. Clients join at **theflexfacility.com/fuel/agent**. See pages 5 and 6.

How it works for your clients

Six steps. The habit stays the same as texting you a photo, but now it's tracked automatically. Clients use it at **fuel.theflexfacility.com**.

01

Quick intake chat

2–3 minutes on first login. The AI asks about their body, goal, activity, food restrictions, and any health flags.

02

Daily targets set

The AI sets a calorie and protein target. **You approve or edit it with one tap** before it goes live.

03

Snap the meal

Photo or typed. The AI estimates calories and macros, and the client confirms or fixes it.

"About 550 cal, 45g protein. Log it?"

04

Nudges + affirmations

Reminders around meal times, plus motivation in their style: hype, calm, faith-based, or tough love.

"Haven't seen lunch yet. Snap it before you eat."

05

Ask anything

Log a weigh-in, or ask "How am I doing today?" or "What should I eat for dinner to stay on track?"

06

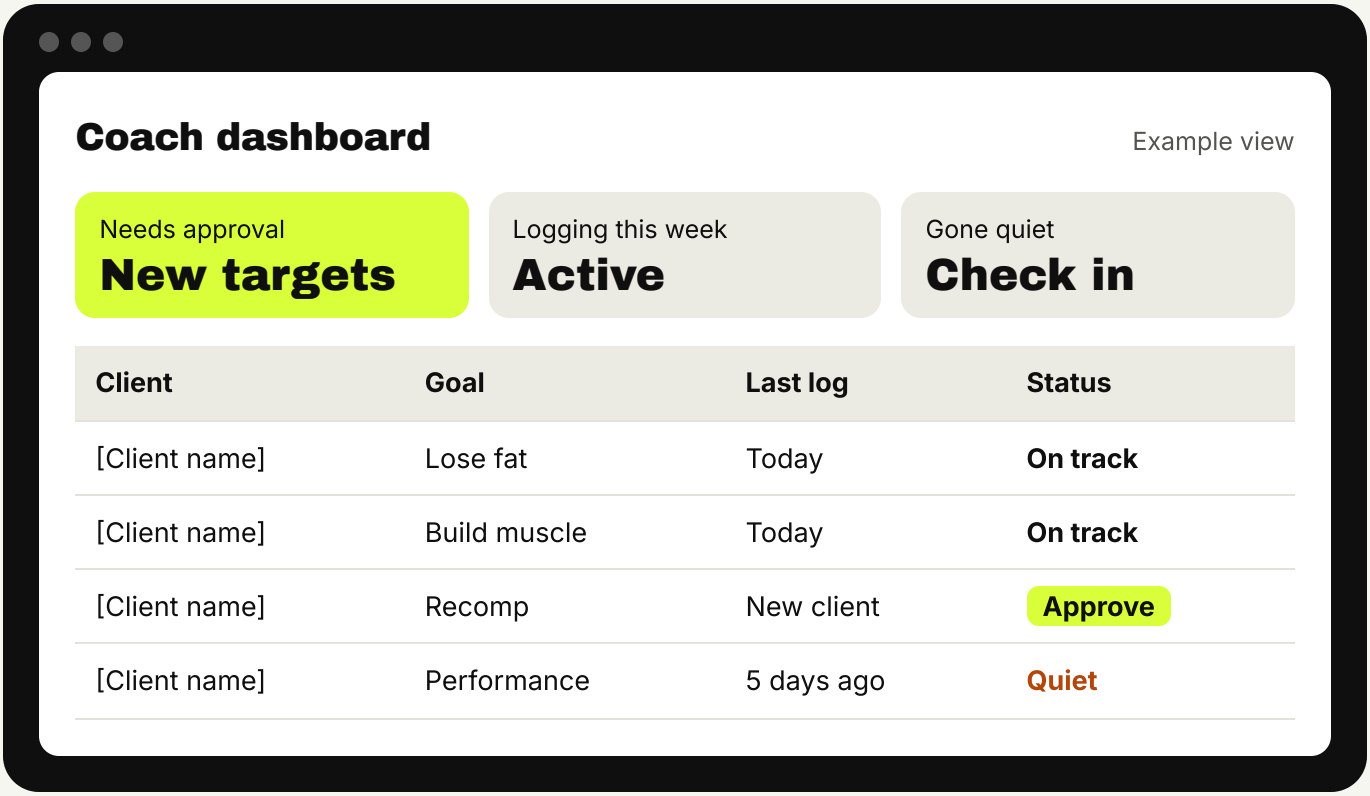

Monthly progress report

On the 1st, every client gets a progress summary by email and inside the app.

Your coach toolkit

No more meal photos flooding your phone. You still see everything, from one screen.

WHERE IT LIVES Sign in at **portal.goelev8.ai**, then open **Flex Fuel → Meals**. The same login runs the step challenge under **Flex Fuel → Stair Challenge**.

Approve targets
Every new client's calorie and protein target waits for your 10-second OK.

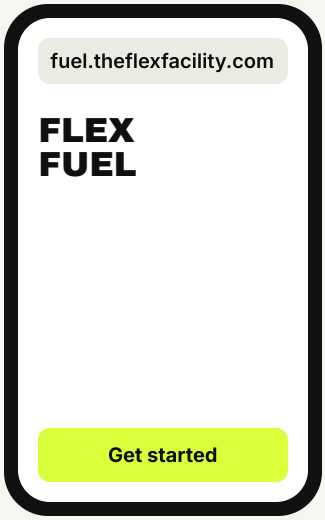

See your whole roster
Who's logging, who's gone quiet, and who's trending toward their goal.

Monthly roster report
On the 1st, a summary of every client's progress lands in your email.

Your phone stays yours
Meal photos go to Flex Fuel, not your personal texts.

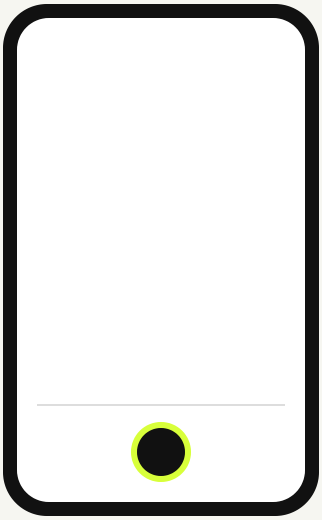

Getting clients set up

Do this with each client at the gym. It takes about 5 minutes. No App Store, no texting fees.

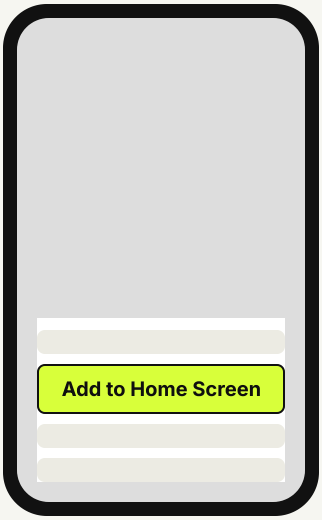

1

Open the link in Safari or Chrome: **fuel.theflexfacility.com**

2

Tap Share (the square with the up arrow)

3

Tap "Add to Home Screen." Required on iPhone for reminders.

4

Open from the icon, allow notifications, and do the intake chat.

Built-in safety guardrails

Calorie floors. Targets never go below about 1,200 for women and 1,500 for men. You can adjust these.

Health check at intake. Pregnancy, diabetes, conditions, and medications get flagged to you before you approve.

Weight-loss cap. The AI limits how fast it targets weight loss.

Not medical advice. Photo counts are estimates. Flex Fuel is a coaching tool, not a dietitian.

Coach tip: If a client skips step 3, reminders still reach them by email. But home-screen setup gets the best results, so do it together. While you're there, have them join the step challenge too (page 5).

November Stair-Step Challenge

The Fuel Agent runs a month-long step challenge with you as the number to beat. It's free, and anyone can join, Flex Fuel user or not.

OUT-STEP COACH KENNY

Beat your total, win a free pass to your Thanksgiving Boot Camp.

Players log their steps every day. Anyone who finishes with **more** total steps than you earns the pass. A tie does not win. Your total is public all month.

DATES	Sun Nov 1 to Tue Nov 24, 2026 (Central)
LAST UPLOAD	Wed Nov 25, 12:00 PM Central
REWARD	Free pass to Thanksgiving Boot Camp
JOIN	theflexfacility.com/fuel/agent
RULES	theflexfacility.com/fuel/agent/rules

1

Join

At **theflexfacility.com/fuel/agent** with first name, last name and email.

2

Get their link

A private **My Challenge** link arrives by email. It signs them in, so they keep it to themselves.

3

Log every day

Upload proof of the day's total steps. The Fuel Agent reads the number, checks the photo and moves them up the live Top 10 board.

Counts

- A photo of the stair machine with the display **switched to total steps**
- A screenshot of the day's Steps in a watch or phone health app (Apple Health/Fitness, Garmin, Fitbit, Samsung and others)
- The full screen, no crops, filters or edits

Doesn't count

- Steps per minute (the StairMaster's default display)
- A workout summary with only time, calories, distance or pace
- Edited, reused or AI-made images
- Logging one day from two sources. Only the best entry per day counts

Each day can be logged until 36 hours after it ends. The leaderboard shows first name and last initial only. Photos, emails and phone numbers are never public.

What you do, and where

Everything is in **portal.goelev8.ai** under **Flex Fuel → Stair Challenge**.

Log your own stairs

DAILY

Open **My Stairs** and enter your total for the day. You're the benchmark, so your number is the one everyone chases.

Clear the Review queue

DAILY

Photos the agent couldn't confirm, and any day over 60,000 steps, wait in **Review**. Approve, reject, or approve with a corrected number. Players see "checking" until you do.

Final checks

NOV 25

Anyone in the Top 10 or ahead of you gets every entry re-confirmed by you before a pass can go out. They show up in **Review** marked for a final check.

Issue the boot camp passes

AFTER NOV 25

After the challenge ends, open **Rewards** to see who earned a pass, issue each one, and mark it used at the door.

Cost, rollout and decisions

PROPOSED COST

~$50

per month, all clients

Covers the AI cost, about $0.50–$1 per active client, or roughly $30–$60 for 60 clients.

Three ways you can use it

- A **Free perk** for every client, to keep people around longer.
- B **Built into packages** as part of your training price.
- C **Paid add-on** sold as premium nutrition coaching.

Rollout plan

1. **Pick the pilot**
   8–10 of your most consistent clients.
2. **Onboard in person**
   Walk each one through page 4 at the gym.
3. **Review together**
   Check logging, accuracy and feedback. Fix what's off.
4. **Full roster**
   Roll out to all 60 clients.

The step challenge doesn't wait on the pilot. It's open to everyone from Nov 1, and it's an easy way to get the whole roster using the Fuel Agent.

Your decisions, Coach

FLEX FUEL

- [ ] Is the flat ~$50/month for all clients good?
- [ ] Option A, B or C from above?
- [ ] Any clients under 18? Parent consent, or leave them out?
- [ ] Keep the default calorie floors, or set your own?
- [ ] Check the dashboard weekly, or just the monthly report?
- [ ] Which 8–10 clients are in the pilot?

STAIR-STEP CHALLENGE

- [ ] Cap the number of free boot camp passes, or does everyone who beats you get one? (No cap right now.)
- [ ] Who clears the Review queue each day in November: you, or someone on your team?
